KurzbeschreibungThe best way to start talking to kids about donors in when they are young, and the easiest way to being the discussion is by reading The Pea That is Me to them. Kids love the whimsical "Pea People" in the story and

will ask to read the story over and over again. Written by a well known psychotherapist and specialist in reproductive issues who uses age appropriate language and simple but clear concepts about the three things it takes to make a baby (eggs, sperm and a tummy to grow in), kids learn that a "very kind lady" helped to bring them into their loving family. Why wait to start talking to your child? Start reading *The Pea That Was Me* to them today!
