before purchasing it in order to gage whether or not it would be worth my time, and all praised The Political Traditions

of Mohammed (The Islamic Trilogy Book 2) (English Edition):

KurzbeschreibungThe words and deeds of Mohammed are the ideal pattern to be followed by all Muslims at all times. Mohammeds speech and actions are called the Sunna and are recorded in the Traditions (the Hadith).The Traditions are more important in the daily practice and world-view of a Muslim than the Koran. Without the Traditions there can be no Islam.There is no subject so great or small that it is not covered. Ethics, jihad, sex, slavery, art and everyday habits are all described in great detail. The Traditions are a tactical manual of Islamic politics and are a key to understanding Islam.The Islamic TrilogyKoran, Sira, HadithIslam is a political system, a culture and a religion based upon the Koran, Sira (life of Mohammed) and Hadith (the Traditions). The Islamic Trilogy series integrates the three primary texts to reveal the entire Islamic political doctrine of the treatment of non-Muslims.The Trilogy is authoritative and fact-based. All content can be confirmed by the use of reference numbers in the primary source documents. The knowledge is integratedall of the primary sources are used to give the complete picture of Islams political doctrine.KurzbeschreibungThe words and deeds of Mohammed are the ideal pattern to be followed by all Muslims at all times. He has been a university professor, businessman, and applied physicist. He was a Member of the Technical Staff in solid-state physics at the Sarnoff Princeton Laboratories in the area of integrated circuit structures. During the energy crisis of the 80's he founded and ran a company that specialized in energy efficient homes. For eight years he was a professor at Tennessee State University in the Engineering School. Dr. Warner has had a life-long interest in religion and its effects on history. He has studied the source texts of the major religions for decades. Even before the destruction of the World Trade Center he had predicted the war between Islam and America. The day after 9/11 he decided to make the source texts of Islam available for the average person. Dr. Warner's training in scientific theory and mathematics shaped how he analyzed Islamic doctrine. The first step was realizing that the Islamic texts had been made deliberately difficult to read and comprehend. A program, the Trilogy Project (see below), was created to strip away the confusion in the texts. It became clear that Islam is not constructed on the same civilizational principles as the rest of the world. Simple statistical methods revealed that dualism and submission were the foundational principles of Islamic doctrine.
