**Von Florence Scovel Shinn : The Power of the Spoken Word** before purchasing it in order to gage whether or not it would be worth my time, and all praised The Power of the Spoken Word:

Simple and direct introduction to true spiritual growthVon Ccacrider@aol.comI found this book to answer so many questions that I was not even aware I had. Reading Ms. Shinn's words was like discovering a hidden part of myself and knowing that I was not alone in the universe.0 von 2 Kunden fanden die folgende Rezension hilfreich. Power of the Spoken WordVon myobPacked with superstitions and stupidity. Might be somewhat helpful for the growing adolescent mind if it were not for inherent contradictions and outright ridiculous statement. A small minded belief in the bible as the word of God distorts and clouds thoughts that might otherwise have at least superficial entertainment value for a child. However it can be a mildly interesting study of the primitive "religious" reality structure of the authors social group.
