KurzbeschreibungJourney with scuba instructor Michael Zinsley as he dives his way through 16 countries, rubbing shoulders with the locals and mixing underwater adventure with after-hours escapades. The Rapture of the Deep is fast

paced and rich in content, consisting of humorous anecdotes, insightful histories, underwater descriptions, and terrifying close calls. The diving stories relate events seen once in a thousand dives. Native cultures are revealed with an awareness that only someone who has lived in those lands can describe. The book's lighter side is the combination of underwater adventure mixed with after-hours escapades (imagine Cousteau extending his documentaries to include closing time in the local bars). The descriptions of coral reef life are written in a way that non-diving readers will be as intrigued as the experts.
