Pure style KesslerVon MarioWell, it is a short novel, Wotan series ... if you are addicted, as me, to Kessler's novels you know what you can expect ... light, good entertainment for sure. Go for it if you like Kessler style (I do), but do not expect something very "deep". It also differs from the typical SWW novels, always one-sided. On the other hand, Kessler has also some quite good "serious" historical books about the SWW. If you are interested in that period of history have a research for those ones too.

Instead, a thousand kilometres of desert lies before them, a blazing, barren, limitless hell. The only creatures an enemy lying in wait for them, silent and unseen.
