over 30 books detailing his thought about Islam and proposing solutions for mankind problems, only two of these books were ever translated to foreign languages. The fact that the translator, Dr. Abdullahi An-Na'em was himself a follower of the teachings of Ustadh Taha, and a renowned international law professor and human rights activist, makes this work readable to westerners, while sticking to the original meaning of the Arabic text. This book of his, undeservedly ignored in the so-called liberated West, is a proclamation of reform and tolerance, against the oppression and despotisms that currently enmesh the Muslim world. Admittedly, his doctrine may seem unrealistic today, in the world of multinational companies and mass consumerism. Much of it is riddled by logical contradictions. For example, it is nonsensical to talk of reforming Islam, a religion which is doctrinally irreformable. But, even if one doesn't agree with him, one is still moved to admire his courage...0 von 0 Kunden fanden die folgende Rezension hilfreich. kamal abd allh alnur Von Ein Kunde nameplate of revolutionary islamic intellectual discourse shaping ustadh mahmoud whole miscellanea with adeep piking up to political, social, and epistemic questions!! namely the reconciliation to absolute individual freedom with entire social justice?..
