Von Heather H-J Heaton : The Secret Life of Ancient Bristlecone Pines (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised The Secret Life of Ancient Bristlecone Pines (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. Worth Reading!Von Sunita ViessmannThis book gives you an interesting insight into the nature surrounding you and calls

your attention to the small or unknown..plus there are useful tips..

Kurzbeschreibung Whether you are an armchair enthusiast or an experienced explorer, The Secret Life of Bristlecone Pines presents insight into an exceptional landscape. By blending elements of natural history, including geology, flora, fauna and even weather, a portrait emerges into how the nature of things work that allow these Ancients to live for thousands of years. Interactive center-bars engage you through questions and food for thought while highlighting outdoor health hazards and promoting responsible stewardship. As a recreational resource, this guide provides outstanding hiking trails and current camping connections along with the best time to visit, driving directions, and contact information.
