One to read over and overVon Ein KundeThe crooked shape of this book gives a clue to what lies within. The Slant Book tells the tale of a boy whose stroller goes careening down a long hill, and the trouble he causes on the way down. The illustrations are great fun, and fill in the gaps where the words get difficult for small children. We've read The Slant Book over and over and never get tired of it. This book is a real pleaser for kids from 3 to 80 von 0 Kunden fanden die

folgende Rezension hilfreich. A childrens' book that you'll enjoy reading to themVon Ein KundeThis book dates from much earlier this century, both in the art-work and the language. The pictures are distinctive, and very nostalgic for those of us who read our grandparent's childrens' books while growing up. The language is challenging, every page containing words such as 'nettled' and 'perambulating'. One of our daughter's favorites, as well as mine.
