Good movement gets you to the finishing position. In Soccer , time and space are the same thing . Movement creates space . Space means time to play . When I read this on the back cover of The Soccer Hutch I thought , well yeah , thats just common sense isn`t it? The

thing about the soccer Hutch is that it all seems like common sense , yet after only a dozen pages I came to the realization that had someone given me a copy of it 25 years ago , I would have enjoyed my 2 decades in non league football alot more , and would have understood the thousands of games I`ve watched live or on television since alot better . What`s great about the book is that since reading it , I`m watching games , players , incidents and tactics in a whole new way . The coaching I recieved in School and afterwards was pretty basic , but after reading this book I feel like a qualified coach myself .So whether your a footballer or a fan and you want a better understanding of the game in an easy to read style , get your hands on " The Soccer Hutch " .
