KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. A great job !Von Peter StreitenbergerOne recognizes that the Author is highly qualified to translate God's Word - not much speculations or gymnastics, just translating what is written in the Greek. I hope that many will read it - Bibles with the problematic Nestle-Aland (made from and for liberals) text and translations on this base are everywhere, that's why this Translation is even more important. The Problem is that many People are not willing to check the textual Basis of their translations and many don't care but Pickering has abandoned the faulty and corrupt NA base text with its many Errors, no Christian would hold genuine, and has based his Translation on the broadly attested Byzantine text. It would be worth a much higher Price - but it's gentle of the Author that he doesn't want to get rich with his Translation of God's Word. I would have given more Points - but more are not available. M.A. phil. P. Streitenberger, Germany

KurzbeschreibungBoth the translation and the notes are the responsibility of Wilbur N. Pickering, ThM, PhD, being based on his edition of the Greek New Testament, according to the only significant line of transmission, both ancient and independent, that has a demonstrable archetypal form in all 27 books. Wilbur N. Pickering is a Christian missionary living near Brasilia, Brazil. He has a ThM and a PhD in Linguistics. Of those actively involved in NT textual criticism, no one holds a more radical view in defense of the inerrancy and objective authority of the Sacred Text. This includes the position that the precise original wording has been preserved to our day and that we can know what it is. Dr. Pickering joined Wycliffe Bible Translators in 1958. After three years of preparation for the field, he arrived in Brazil in 1961, where he and his wife began the translation work with the Apurin people. In 1996 he resigned from Wycliffe to pursue other interests. For some time Dr. Pickering has felt that among the many hundreds of Greek manuscripts known to exist today, surely God would have preserved the original wording. After years of searching and comparing Greek NT manuscripts, he has concluded that God used a certain line of transmission to preserve that wording. That line is by far the largest and most cohesive of all manuscript groups, or families. It is distinguished from all other groups by the high level of care with which it was copied (Dr. Pickering holds copies of perfect manuscripts for 22 of the 27 books). It is both ancient and independent, and is the only one that has a demonstrable archetypal form in all 27 books. That archetypal form has been empirically, objectively identified by a wide comparison of family representatives, and it is indeed error free. As he expected, that error-free text is not seriously different from some of the other good Greek texts. Nevertheless he has done an English translation based on it.
