**Von Martin Varley : There's a Centipede in My Pyjamas: An English Family in Seychelles - Volume 1 (English Edition)** before purchasing it in order to gage whether or not it would be worth my time, and all praised There's a Centipede in My Pyjamas: An English Family in Seychelles - Volume 1 (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. Thumbs upVon Lara GutserI can recommend this book to anybody who visited seychelles before. Its fun reading it and its so close to reality that you get the feeling of beeing there. Looking forward to part 3

KurzbeschreibungIts February 2011, the recession is in full swing and jobs are harder to come by than honest politicians. Things are looking grim for unemployed conservationist Martin Varley until he lands a dream job in the Seychelles. He, his homeschooling wife, Joanna, and their four children pack what they can carry in their Emirates luggage allowance and leave the sodden shores of the UK for a new life in paradise.The Seychelles is a basketful of sun-kissed islands cast adrift in the Indian Ocean, a thousand miles away from anywhere. It is a dream destination for honeymooners and holiday makers in search of sea and sand. This is seriously unfamiliar territory for an ordinary family from the north of England. But what is even more unexpected is the exotic wildlife which shares the islands with their inhabitants.Theres a Centipede in My Pyjamas is a catalogue of unpredictable and extraordinary encounters with tropical birds, turtle-stalking crabs, treasure hunters, lazy lizards, dead lepers, giant nuts and angel-invoking herbalists, which justifies the Seychelles Tourist Board claim that the islands are another world..... but just not in the way that they mean!
